COMPANY DESCRIPTION:

Tomarchio represents a Sicilian tradition of soft drinks that dates back in 1920 with its first plantation and realization of its first gassosa. Since then, the company has evolved to become the undisputed regional market leader in the citrus segment.

At Tomarchio all the fruit is sourced from local growers. The company uses only the first press of the citrus fruits - to preserve the best of the flavors and all the nutritional properties.

Arancia Rossa di Sicilia IGP Limone di Siracusa IGP Mandarino Tardivo di Ciaculli Arancia di Ribera DOP, are processed the same day as the harvest to realize the precious juices. In the process, essential oils are recovered to be reused in the preparation of beverages to enrich their taste and aroma.
